

GV103: Introduction to International Relations

Dr. Philip Arena

Collaboration Problems

Introduction

- Two goals for this lecture
 - Provide general understanding of **collaboration problems**
 - Discuss how they explain why there isn't more cooperation

A Model of Collaboration

	Clean	Don't
Clean	$\beta - c, \beta - c$	$\beta - 2c, \beta$
Don't	$\beta, \beta - 2c$	$0, 0$

Applications

- Exchange rates
- Disarmament
